

SP 8.1 Special Purchases

Substantive changes in the accompanying 3-20-06 revision to LBNL's current 2-15-01 version:

1. Adds definitions to more effectively incorporate requirements of Prime Contract Clause 1.9B, *Required Sources For Helium and Helium Usage Data*.
2. Removes products and services of the blind (FPMR 101-26.701) and products made in federal penal institutions (FPMR 101-26.702) from the list of mandatory Special Items purchases. E-mail correspondence was received in September 2005 from DOE Headquarters, which clarified that these two sources of supply are not mandatory for Contractors.
3. Identifies the Creative Services Department as the printing department at the Laboratory and removes site specific instructions applicable to LANL and LLNL.
4. Adds requirement to include FAR Clause 52.208-8, *Required Sources for Helium and Helium Usage Data*, in orders that may involve major helium requirements.
5. Adds requirement of Prime Contract Clause I.9(c) for the purchase of paper for copying, printing, filing, and writing.
6. Updates references to current Prime Contract inclusions and to DOE Order 1340.1B.
